

PLEASE do not make New Jersey's DO NOT CALL REGISTRY AND LAW weak. I am a NJ resident who signed up for it. Finally I have peace of mind as I do not get ANNOYING PHONE CALLS from TELEMARKETERS. Disturbing the peace of citizens is harassment. IF we want service/products, we will reach out to the companies who provide them. Absolutely, NO NEED for the companies to push their products/services by pounding on our phone line. This also raises a security concern as the telemarketing companies can procure almost all information about the person's residence, etc. based on a phone number. So all in all it would be HIGHLY IRRESPONSIBLE act to weaken the 'DO NOT CALL' LAW/REGISTRY FOR NEW JERSEY residents.
